Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 8/15/06 has been entered.

REJECTIONS WITHDRAWN

2. The 112 2nd paragraph rejections set forth in the final rejection of 11/14/05, pages 3-4, paragraphs 8-11.

REJECTIONS REPEATED

3. The 102(b) rejections set forth in the final rejection of 11/14/05, pages 4-5, paragraphs 12-13 are maintained for the reasons of record.

NEW REJECTIONS

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 1772

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 37-40 are rejected under 35 U.S.C. 102(b) as being anticipated by Kaschel et al. (US 5885707).

Kaschel discloses wherein said metallized layer is metal foil (column 6, lines 14-24) and wherein said thermoplastic polymeric material of the first layer comprises ethylene acrylic acid copolymer (Table 2 and column 4, lines 17-20).

ANSWERS TO APPLICANT'S ARGUMENTS

6. Applicant's arguments filed 8/15/06 have been carefully considered but are deemed unpersuasive.

Applicant has argued that the citation of Kaschel (column 2, lines 28-34) with regard to the melt index of the polyethylene sealing layer is not in reference to their own invention but rather to an invention disclosed in EP 0572034 and that melt index of the polyethylene sealing layer of Kaschel is from 0.5 to 10 g/10 min (column 4, lines 45-49). However, it is clearly stated in the MPEP that a reference is for all it discloses not just the preferred embodiments (MPEP 2123). Furthermore, applicant's claim recites that the melt index is above **about** 10. The term "about" includes numbers below and above 10. Thus, a melt index of 10 g/10 min would read on applicant's claim because the phrase "above **about** 10" includes values below and above 10.
